Samtec is registered with the State Department for ITAR regulated programs. It is the responsibility of the customer to notify Samtec if a project is under ITAR regulation. Once notified, Samtec will secure all controlled technical documentation and correspondence as required by the regulation. ITAR control will not apply to Samtec Commercial of the Shelf(COTS) products.

If you use Samtec products without an ACD series part number in the automotive industry or in other applications having specific requirements, then you agree that you will not use these products in automotive scorecard evaluations and agree that you will waive Samtec's obligations under TS 16949 or any customer requirements. Go to www.samtec.com/TS for details.

Cancellation Outside of Lead Time Policy

Cancellation Terms: Samtec will allow cancellations and reschedules when requested outside of the lead-time of the quantity ordered. Normally 3-5 days for volumes up to 1,000, 10 days for 5,000, 20 days for 10,000 and 30 days for higher volumes. Application Specific Products (ASP/SEP/MEP/SCF) are special orders and must be approved by Samtec prior to cancellation. Cancellation charges may apply for any product cancelled within the lead-time window. (Lead-times may change based on material availability.)

Return Guidelines: Samtec is a build to order manufacturer with lead-times of 3-5 days, therefore returns are limited to selected full strips or products approved by Samtec for return.

Samtec confirms this order only to Samtec's Terms and Conditions. A copy of these Terms & Conditions can be obtained by written request. Price setting exclusive of freight and insurance.

The parts identified within your PO will be built to Samtec's requirements and workmanship standards. Exceptions should be noted in an ASP, TCD, ACD drawing or a signed agreement from Samtec to be valid.
