Kooltronic announces the SlimKool Series!

Kooltronic is pleased to announce a new line of Slim Panel Mount Air Conditioners - **The SlimKool Series**. These narrow units will feature small footprints and slim design in a direct response to industry demands for enclosure cooling in smaller cabinets. All **SlimKool** models are just 12 inches wide, a design feature that provides more flexibility for the increasingly narrow electrical enclosures common in industry today. Consisting of four air conditioners from 28 to 43 inches high and offering a range from 4,000 to 11,000 BTU/H, the new **SlimKool Series** will offer large cooling capacities from small packages. These units will be available in 115, 230 and 480 Volt, with NEMA ratings of 12, 3R, 4 and 4X. This versatility makes the **SlimKool Series** a perfect choice for virtually every application, from indoor washdown to outdoor corrosive environments. Stay tuned for further developments on this new and exciting cooling product series from Kooltronic.

NEMA 4 Rated SlimKool with a heavy-duty steel shell, and NEMA 4X SlimKool with stainless steel shell.

**12 INCHES WIDE - INDOOR/OUTDOOR - NEMA4/NEMA 4X
NEMA 12/NEMA 3R - 115V/230V/480V**

With over 55 years of service to its customers, Kooltronic is the leading manufacturer of air conditioners, heat exchangers, fans, blowers and custom cooling solutions designed specifically to cool the interior of enclosures containing heat sensitive electrical/electronic components, as well as various heat-producing applications. Manufactured at our corporate headquarters in Pennington, NJ, we also have a regional sales office in Ventura, CA to support our west coast customers.

We look forward to being of service to you in the future!
