

MBRK-DIN-K Din Rail Mounting Bracket Kit (Part 1)

A

B

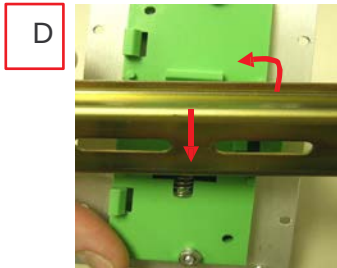

C

- A. Din Rail Guide: Mount the rail guide slots facing out with the spring loaded guide (of which the rail is inserted into) on the bottom side.
- B. Std Radio: Place #4 lock washers on all 8 of the 4-40 $\frac{1}{4}$ " screws. Attach 4 of the $\frac{3}{4}$ " standoffs to the back side of the radio with 4 screws. Align Standoffs to the Panel holes, secure with the other 4 screws.
- C. Enclosure: Place #4 lock washers on 4 of the 4-40 $\frac{1}{4}$ " screws. Align the bottom Enclosure holes to the Panel holes, secure with screws.

E

Press down, push back.

- D. Attach the Rail by pressing the rail edge down into the spring loaded guide, push the other side back into the fixed guide. It is most appropriate to have the spring guide towards the bottom with the Radios RF connector facing up.
- E. The Guides on the Contact Foot allow the Radio to be installed vertically or horizontally.
