

CADENCE eDAcard

The Cadence® eDAcard provides a flexible way to manage your current and future needs for Cadence software with an easy-to-use and convenient self-service system. Whether you need a large amount of software at once or incremental software for peak usage, an eDAcard allows you to self-manage your license configurations. You have instant Internet-based access to the Cadence software library 24 hours a day to order products, explore new technologies, and download software anytime, anywhere—with the flexibility to get licenses for variable durations.

BENEFITS

- Provides a convenient and flexible purchase arrangement
- Increases your productivity by streamlining the purchasing cycle
- Offers variable durations for licenses (from one week through the contract expiration date) to help you meet changing project needs and improve efficiency
- Allows you to explore and adopt new technologies at minimal risk and cost
- Lets you purchase exactly what you need, when you need it, with an easy-to-use Internet-based self-service system

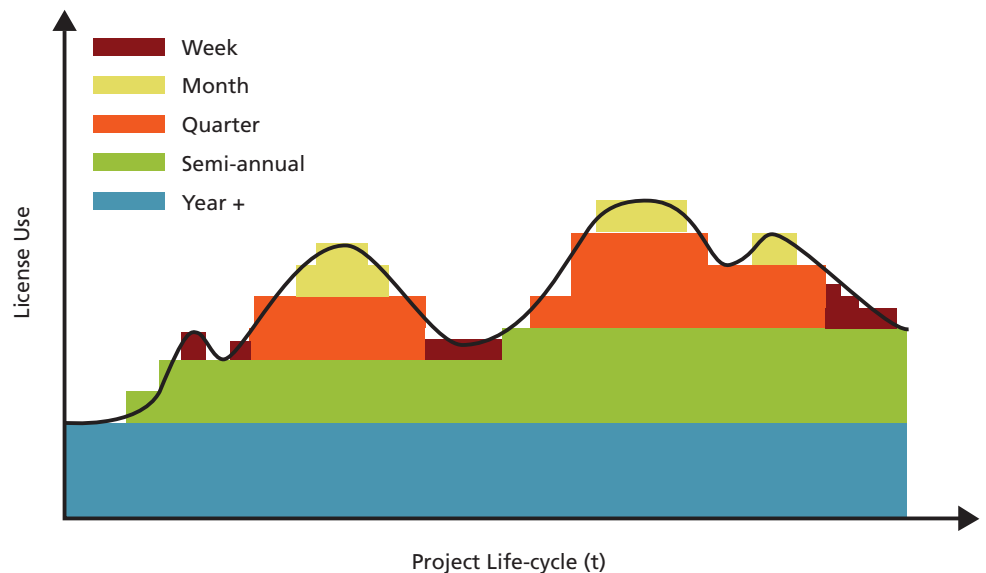

Figure 1: The Cadence eDAcard offers flexible licensing

FEATURES

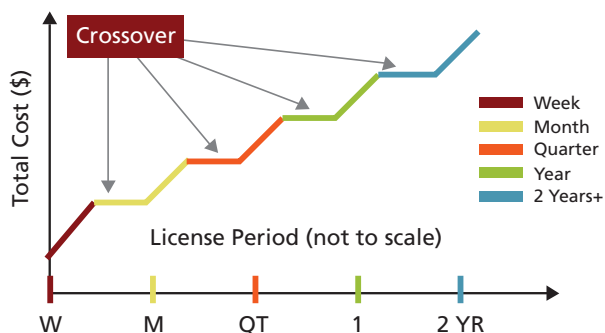

- Convenient and easy-to-use web-based interface
 - Browse the entire Cadence software catalog, get quotes, and order products online
- Self-service license generation in just minutes
- High-speed downloads of the latest Cadence software
- Automatic calculation of appropriate rates based on selected duration

PRODUCT RATE TABLE

Time	Product	Upgrade
2-year	190%	200%
Yearly	100%	100%
Semi-annually	65%	65%
Quarterly	32.5%	50%
Monthly	19.5%	30%
Weekly	11.7%	18%

- The rates are an estimate. Actual rates vary based on term (in days) of license length.
- Rate table: Pricing based as a percentage of the 1-year time-based license (TBL) reference price. 95% for 1 year or greater in first 30 days of the activation date or for any selection of 24 months if time remains on the card. Rates subject to change without notice.
- During product selection, a customer may select licenses with or without Wide Area Network (WAN) use rights with associated fees added depending upon selection. A customer may also select the Install Location of licenses. Any Designated Server outside of the Americas is subject to Regional Local List Price uplifts. Please contact Sales for further information before product selection.
- Rate table is effective from April 2009.

Drawdown term vs. Cost

For products prices reach a cap as they crossover or near a specified term length:

Term length	Caps at
12 days	1 month
50 days	1 quarter
281 days	1 year
694 days	2 years
