3.0 Detail

PRO4 skid components were added to the pro4 oculus kit (52388).

2 new part numbers were created to combine the kit and the actual sonars. (71560, 71561)

Additionally, some misc. parts that are included in the PRO4 kit from blueprint (BP01275) were given VR part numbers for consistency.

71560 & 71561 are the part numbers that sales should use when selling oculus sonars on PRO4s.

Note that when ordering the sonars, we should be purchasing the full kits (BP01192, BP01194) which includes test cables and other sundry parts.
