3.0 Detail

The MSS motor controller PCB electronics uses 100n/100V 0603 ceramic capacitor at locations C31. The specific capacitor used for this purpose has become obsolete (P/N CGA3E3X7S2A104K080AB) and as a result the motor controller PCB (70041) BOM should be updated with the new placement (P/N C1608X7S2A104K080AB). This ECO records new changes together with subsequent follow up actions in related departments.

4.0 Disposition of Material

No rework of old stock.

This is just a cross replacement for an unavailable part.
