Important Information and Notes Regarding Your Order

All in stock items will be shipped ahead by the shipping method you choose. Any back ordered items will be shipped via UPS ground at no additional shipping charge once they come into stock (as long as the item(s) are not oversized).

If you need to make a change to your order please forward this email confirmation with your request to WebOrderRequest@apsltd.com Remember we can not access your order until after it is downloaded. Orders are downloaded weekdays at 9am and 1pm EST. Please be aware that if we are able to honor your request, non-web shipping rates will apply.

To provide you the most up to date product information, our online inventory levels are updated every hour. However remote, there is the possibility that an item indicated as "In Stock" may actually be back ordered (sold out) and ship at a later date. Once your order has been downloaded and processed by us the next business day you will receive an email confirming your order has been processed and includes an itemized list of your order content and availability. Please contact us with any questions.

Additional shipping charges apply on larger items such as spars, dollies, trailers, spinnaker poles and other oversized, bulky, high volume or overweight items. Please review our online Oversized Shipping rates page or call us for more information.

Annapolis Performance Sailing diligently works with its suppliers and product manufacturers to ensure correct and updated pricing, information and availability of the products offered for sale. APS cannot be responsible for manufacturer/supplier changes of published prices or specifications. Please visit www.apsltd.com for more information. APS stocks most of the products it sells, however certain items may from time-to-time be sold out or otherwise temporarily unavailable from their manufacturer/supplier. In cases where APS is made aware of a delay a member of our staff will try to contact you and make you aware of the situation.
