Hi Joany,

Thanks for the information! Too bad on the long bar, that looked like quite a deal. for the tube you offered, could it be trepanned to 4.250" ID? If so it would be great if you could provide a quote for that and also:

Qty. 2, 6" OD x 1.875" long, 6AL-4V Grade 5 per AMS 4928

Thanks!

Paul

Hi Paul,

I am sorry but the particular SKU you are looking at does not have any certs available. We do have a couple of other items in our online store that have certs available but they are much shorter than the one you were looking at. You can find them here:

<http://store.tms titanium.com/products/11581/titanium-round-bar/6-4-grade-5/5.9040-dia-7.1500-long>

<http://store.tms titanium.com/products/3306/titanium-round-bar/6-4-grade-5/5.9800-dia-6.8500-long>

Let me know if those would work and I can send you a formal quote to include certs.

We can also offer:

6AL-4V Grade 5 per AMS 4928
Domestic with mill certs
6.00" Dia x 16.00" Long
1 pc @ \$1,970.00/each

Ships 4-6 days ARO
Saw cut +.25"/-0
Stock subject to prior sale
FOB shipping point

Message:
I'm interested in purchasing SKU # 00105, could you provide certification information for this part and a formal quote? That is okay if it increases the cost a bit for the certification.

Thanks!

Paul
