RE: Quote 1226412

Dear Duane,

I am writing to provide you with a quote for the following MathWorks products. This quote is valid until 7/1/05.

Please reference your quote number on your purchase order.

If I may be of any further assistance, please do not hesitate to contact me.

Sincerely,

Rob Meehan
National Accounts Manager

***Tax:** \$362.50

Shipping: \$0.00

Grand Total: \$5,362.50

*** Tax and shipping are subject to change.**

Our shipping terms are NET 30 FCA Origin.

Based on your shipping address, the MathWorks is required to collect sales tax. In order to comply with state and local tax laws, we must have in our files a properly executed exemption certificate given to us in good faith from all our customers who claim sales tax exemption. If we do not have this certificate, we are obligated to collect the tax for the state in which the property is delivered and where we are authorized to do so. If you are entitled to sales tax exemption, please complete a tax exemption certificate and include it with your order.

Software Maintenance Service – The initial purchase of any MathWorks' professional product provides the Software Maintenance Service at no extra cost for an initial 12-month period. Maintenance entitles you to product updates, technical support and priority customer service. After the initial 12 month period, a maintenance renewal fee is required to extend this service. Please note that licenses on which maintenance has lapsed by three months or more will incur a reinstatement fee.

Student Group Licenses are not eligible for Software Maintenance Service.

Software Maintenance Service. Note: MATLAB maintenance must be current in order to add new products or additional users to a license.

If this is a quotation for Software Maintenance Service renewal and, if applicable, the reinstatement fee will appear as a separate line item. Licensed products for which Maintenance has lapsed three months or more require payment for the lapsed maintenance term plus a reinstatement fee.

PRODUCT LICENSING OPTIONS

Refer to the License Agreement at www.mathworks.com/license for complete details and definitions of terms.

Individual License An individual license allows the products to be used by a single named user designated by the Licensee. The products may be installed on one or more stand-alone computers (for example, at work and at home), provided that the products are only accessible to, and operated by, that single named user. Licensee must specify platform (Windows, Linux, UNIX, or Macintosh OS X.)

Commercial Group License Group administered licenses are intended for sites where a single systems administrator installs and maintains the products on a group of computers. A Group license allows products to be installed and used by a specified number of designated named users, with the same restrictions as noted for Individual licenses. A Group license may also be installed to operate for the set of designated named users over a network. It is the responsibility of the Licensee to track and control the number of users of each licensed product. The minimum number of Named User licenses that must be enrolled in Software Maintenance is 5.

Concurrent License Concurrent licensing allows products to be licensed per concurrent user on computers that are connected to a server running a single license manager. The product is not restricted to named designated users; instead, it allows a specified number of concurrent users to run the products on any computer on a local area network. Pricing is determined by the number of concurrent users. This license option is available for Windows, Linux, UNIX and Macintosh OS X systems as long as they operate under a single license manager on a local area network. Users located outside the country in which the license manager server is installed may not access the programs unless the Licensee has contracted for global use.

MATLAB Compiler Support Not all Programs are eligible for deployment, compilation, distribution, or Web access. For Programs that are ineligible, see www.mathworks.com/products/compiler/compiler_support.html

LICENSE TERM

The Individual, Group, and Concurrent license options are licensed on a PERPETUAL basis, providing the right to use the software indefinitely. The initial purchase price of a Perpetual license includes software maintenance service for the first 12 months. After the initial 12 month period, an annual software maintenance fee is required to renew your software maintenance service. Software maintenance service provides product updates and technical support.

DOCUMENTATION

You may purchase additional documentation for any product you have licensed. The price is \$55 for MATLAB user documentation and \$35 each for all other documentation.

SOFTWARE MAINTENANCE SERVICE

Product Updates. You are entitled to product updates if you are current under the annual software maintenance service. The annual software maintenance service renewal fee is calculated based on the products installed in your configuration and the licensing option. If your software maintenance service lapses, you may reinstate it within four years of the expiration date by paying for the lapsed maintenance term plus a reinstatement charge. Shipping and handling fees for product updates are included in the software maintenance service renewal fee.

Download Products. If you are current under the annual software maintenance service, you may obtain the latest version of the products for which you are licensed at www.mathworks.com/downloads.

Technical Support. Telephone and e-mail access to technical support engineers is provided as part of the software maintenance service.

Renewal Fees. The annual maintenance prices list shows the renewal fees for the Individual, Group, and Concurrent license options.

ORDERING INFORMATION

There are four ways to order:

1. Visit www.mathworks.com/store.
2. Mail the order, accompanied by a check in U.S. dollars, drawn on a U.S. bank.
3. Charge the order to VISA, MasterCard, or American Express via mail or phone. Include card number, expiration date, and name as it appears on the card.
4. Mail or fax a purchase order. We cannot ship based on phone-in purchase orders. Payment terms are Net 30 and must be referenced on your purchase order.
Attn: Order Management
The MathWorks, Inc.
3 Apple Hill Drive, Natick, MA 01760-2098 USA
Fax 508-647-4515

Contact Information. Complete ultimate end user information is required to send installation passcodes and ship updates. Provide either the existing license number or the complete names, addresses, and e-mail addresses of all ultimate end users.

Sales Tax. For orders shipping to AL, AZ, CA, CO, CT, DC, FL, GA, IL, IN, MA, MD, MI, MN, MO, NJ, NM, NV, NY, OH, PA, SD, TX, VA, WA and WI, please add applicable sales tax or provide a tax exemption certificate or other proof of tax exempt status with your order. In the absence of exemption documentation, sales tax will be added to your invoice or credit card payment.

MathWorks Federal Identification Numbers.

Federal Taxpayer Identification Number (TIN): 94-2960235
Central Contractor Registration Number (CCR): 131142747

Shipping and Handling Fees. Prices as shown do not include shipping and handling fees; these must be included in your order. Use this table to calculate fees:

	Ground	2nd-Day Air	Next-Day Air
First Product/Documentation	\$10	\$15	\$25
Each additional Product/Documentation	\$2	\$3	\$5
Canada (Air Only): First Product/Documentation – \$30, additional – \$6.			

For a GROUP or CONCURRENT license, use the number of unique products ordered. For individual licenses, use the total number of copies of all products ordered.

Money-Back Guarantee. If you are not completely satisfied with your purchase, call within 30 days for a full refund.

Installation Requirements

Prices and terms are valid for product use and installation in the U.S. or Canada only and are subject to change without notice.
