Session I: Batteries

Facilitator: Pat Imhof, BST Systems Inc

Session Summary

Pat Imhof, BST Systems Inc.

Presentations
Papers-PowerPoint
3 [Text](#)

Energy Systems For FAU AUVs

*Ed Henderson, T. Pantelakis, and Edgar An,
Florida Atlantic University, Dania, FL*

5 [Text](#) [PPT](#)

Lead-Acid Batteries For Use in Submarine Applications

Joe Szyborski, GNB

11 [Text](#) [PPT](#)

Energy Storage Systems for Large Scale Vehicles

*Karl R. Sette and John R. Spina, Large Scale Demonstrator Systems,
Naval Surface Warfare Center Carderock Division, West Bethesda, MD*

19 [Text](#) [PPT](#)

The Experience and Limitations of Using Manganese Alkaline Primary Cells in Large Operational AUV

*Peter Stevenson and Gwyn Griffiths, A.T. Webb, Southampton
Oceanographic Center, Southampton, UNITED KINGDOM*

27 [Text](#) [PPT](#)

Silver Zinc Batteries For AUV Applications

Pat Imhof, BST Systems Inc., Plainfield, CT

35 [Text](#) [PPT](#)

Performance, Safety Characterizations and System Integration of a Large Lithium Thionyl Chloride Battery For Unmanned Undersea Vehicles

*C. Winchester, NSWC Carderock Division, West Bethesda, MD, C. Egan,
NUWC Newport Division, Newport, RI, Damian Drozd, Boeing, Advanced
Information Systems, UUV Systems, Anaheim, CA, and A. Zolla,
J. Westenberger, HED Battery Corporation, Santa Clara, CA*

39 [Text](#)

Lithium Ion Batteries for Autonomous Underwater Vehicles

*N. Raman, Tristan Grivel, and J. Douglass Briscoe, Saft America Inc.,
Cockeysville, MD*

45 [Text](#) [PPT](#)

The Development of a Magnesium-Hydrogen Peroxide Semi-Fuel Cell

*M. G. Medeiros, C. J. Patrissi, S. P. Tucker, L. G. Carreiro,
E. G. Dow, Naval Undersea Warfare Center, Newport, RI, and
R. R. Bessette, University of Massachusetts Dartmouth, N. Dartmouth, MA*

51 [Text](#) [PPT](#)

Session II: Fuel Cells

*Facilitator: Craig Wall, Fuel Cell Working Group,
Advance Vehicle Systems Group, Southwest Research Institute*

Presentations
Papers-PowerPoint

Session Summary

*Craig Wall, Fuel Cell Working Group, Advance Vehicle Systems Group,
Southwest Research Institute*

59 Text

Technical Issues and Opportunities for Fuel Cell Development for AUVs

Karen E. Swider-Lyons, PhD, NRL, Washington DC, Richard T. Carlin, PhD, ONR, Robert L. Rosenfeld PhD, DARPA/TTO, and Robert J. Nowak, PhD, DARPA/DSO, Arlington, VA.

61 Text PPT

PEM Fuel Cell Technology Status and Applicability For Propulsion of Autonomous Underwater Vehicles

Dr. Franco Barbir, Proton Energy Systems, Rocky Hill, CT.

65 Text PPT

AUV/UUV Fuel Cell Propulsion Options

David J. Edlund, IDA Tech, LLC, Bend, OR.

71 Text PPT

Wave Energy Systems For Recharging AUV Power Supplies

George M. Hagerman, Jr., Virginia Polytechnic Institute and State University, Center for Energy and The Global Environment, Alexandria Research Institute, Alexandria, VA.

75 Text PPT

Aluminum Energy Semi-Fuel Cell Systems For Underwater Applications: The State Of The Art And The Way Ahead

Michael Adams, MEng, P.Eng., PMP, and Wojtek Halliop, Fuel Cell Technologies Ltd., Kingston, Ontario, CANADA.

85 Text PPT

The Alkaline Aluminium Hydrogen Peroxide Semi-Fuel Cell for the HUGIN 3000 Autonomous Underwater Vehicle

Oistein Hasvold, Principal Scientist and Kjell Havard Johansen, Norwegian Defence Research Establishment (FFI), Kjeller, NORWAY, and Karstein Vestgard, Kongsberg Simrad AS

89 Text PPT

Session III, Other Energy Systems

Facilitator: Dick Bloomquist, Director, Technology Transfer, Code 0117, Carderock Div., NAVSEA, West Bethesda, MD

Session Summary

Dick Bloomquist, Code 0117, Carderock Div., NAVSEA, West Bethesda, MD.

97 Text

Flywheel Batteries For Vehicles

*Joseph H. Beno, Richard Thompson, and Robert E. Hebner and
The University of Texas at Austin, Austin, TX.*

99

Presentations
Papers-PowerPoint

[Text](#) [PPT](#)

Rechargeable Cryogenic Reactant Storage and Delivery Systems for Fuel Cell Powered Underwater Vehicle

*Mark S. Haberbusch, Robert J. Stochl, Chinh T. Nguyen, Adam J. Culler,
Sierra Lobo, Fremont, OH, Jesse S. Wainright, Case Western Reserve
University, Cleveland, OH, and Mathew E. Moran, Isotherm
Technologies, Brunswick, OH*

103

[Text](#) [PPT](#)

A Next-Generation AUV Energy System Based on Aluminum-Seawater Combustion

*Timothy F. Miller, Jeremy I. Walter, and Daniel H. Kiely, Applied
Research Laboratory, The Pennsylvania State University,
State College, PA*

111

[Text](#) [PPT](#)

Hydrocarbon Fueled UUV Power Source

*Daniel H. Kiely and James T. Moore, Applied Research Laboratory,
The Pennsylvania State University, State College, PA*

121

[Text](#) [PPT](#)

A Survey of Available Underwater Electric Propulsion Technologies and System Safety

*Clinton Winchester, Justin Govar, Julie Banner, Tracey Squires,
Patricia Smith, Naval Surface Warfare Center, Carderock Division,
Power System Branch, Battery Technology Group, West Bethesda, MD*

129

[Text](#) [PPT](#)

Results of the Evaluation and Testing of the Solar Powered AUV and Its Subsystems

*Mikhail D. Ageev, Institute of Marine Technology Problems (IMTP), RAS,
FEB Vladivostok, Russia, D. Richard Blidberg, Autonomous Undersea
Systems Institute (AUSI), James Jalbert Florida Atlantic University,
Boca Raton, FL (formerly of AUSI), Charles J. Melchin AUSI, and
Donald P. Troop, AUSI*

137

[Text](#) [PPT](#)

Session IV: 20 Years From Now

A look ahead by the technology presenters and some additional thoughts.
Facilitator: Claude P. Brancart, NextFish, Brunswick, ME

Session Summary

Claude P. Brancart, NextFish, Brunswick, ME

149

[Text](#)

Batteries

The Future for Submarines

Joe Szyborski

151

[PPT](#)

		Presentations PowerPoint
Future Improvements to Ag/Zn <i>Pat Imhof</i>	153	PPT
Fuel Cells		
Fuel Cells for AUVs <i>Karen Swider-Lyons, et al</i>	155	PPT
Fuel Cell Technology – 20 years from now <i>Dr Frano Barbir</i>	157	PPT
Magellan Under the Sea <i>George Hagerman</i>	161	PPT
The Way Ahead:Aluminum Semi-Cell <i>M. J. Adams</i>	163	PPT
Alkaline Al/Hydrogen Peroxide Semi-Fuel Cell <i>Oistein Hasvold</i>	167	PPT
Other Energy Systems		
Flywheels within the Next Two Decades <i>Dr Robert Hebner</i>	169	PPT
Future in Cryogenics and Transportation <i>M. Haberbush, et al</i>	171	PPT
Hydrocarbon Fueled UUVs <i>Dan Kiely</i>	173	PPT
Prospects for Future Power and Platform Safety <i>Clinton Winchester</i>	175	PPT
Future (Past?) of Metal/Aqueous Semi Fuel Cell Hybrid Energy Source <i>E. G. Dow</i>	177	PPT
Solar Powered AUV <i>Dick Blidberg</i>	179	PPT
Attendee List
