

Hi-Speed IP Video

Multi-Megapixel Low Light Performance

For resolution, sensitivity and frame rates beyond “high performance,” look to the IQeye600 Series with LIGHTGRABBER™ from IQinVision. Available in 1, 2 or 3 megapixel models, these hi-speed IP camera systems take you where no CCTV system can. Conserve bandwidth and extend storage with integrated motion detection, image cropping and downsampling.

With up to 40x more detail than CCTV, the IQeye600 Series has enough resolution to replace a mechanical PTZ camera or multiple conventional cameras. Capture everything, all the time.

- **30ips @ 1.3 megapixel**
- **20ips @ 2.0 megapixel**
- **12ips @ 3.0 megapixel**
- **LIGHTGRABBER low light technology**
- **Extensive bandwidth management**
- **Proven network reliability**
- **Integrated power over Ethernet**

IQeye600™
series

because seeing is believing.

IQeye600 - Hi-Speed IP Video *series*

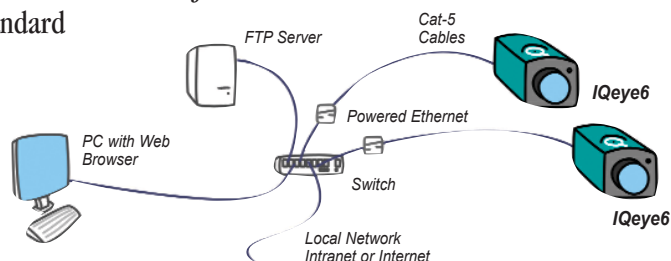

IQlibrarian™

Embedded in every IQeye smart camera system, IQlibrarian enables you to record and playback images *with no client software*.

Record to a remote server using standard commodity FTP network storage.

IQpoet™

The IQeye is a low power IP camera that can be powered up to 100m over the Ethernet, using standard CAT-5 cable and an optional power injector. The IQpoet significantly reduces cost, simplifies installation and provides redundant power capability.

- **HDTV progressive scan**
- **0.3 lux performance**
- **Alarm input, relay and 12V DC output**
- **Low power, AC or DC**
- **No client application, all browser based**
- **Fits in standard CCTV outdoor housings**
- **Analog video out**
- **Ultra-high output engine**
