

Hi-Resolution IP Camera

Exceptional Image Quality that's Affordable

The IQeye101, from IQinVision, provides outstanding image quality at low-resolution prices. Most IP/CCTV cameras produce images that leave you guessing what happened. The IQeye101 provides nearly 60% more detail so you can clearly identify what the other cameras miss.

Each IQeye101 includes integrated Power-Over-Ethernet, making installation simple and inexpensive. Its "no-moving-parts" design means reliable, low-maintenance operation. IQinVision's special imager technology eliminates the need for expensive auto-iris lenses. The IQeye101 fits into standard CCTV housings and works with a variety of C/CS mount lenses.

- **High resolution - 800 x 600 images**
- **Embedded recording software**
- **Quadview multi-camera viewing**
- **Digital PTZ with no moving parts**
- **Integrated power over Ethernet**
- **Compatible with leading Video Management Systems**

because seeing is believing.

IQeye101 - Hi-Resolution IP Camera

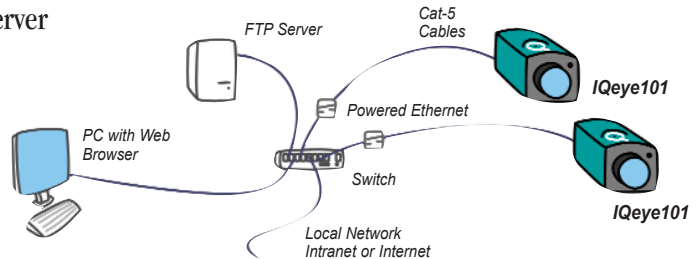

IQlibrarian™

Embedded in every IQeye smart camera system, IQlibrarian enables you to record and playback images *with no client software*.

Record, on-site or remotely, to a server or network storage.

IQpoet™

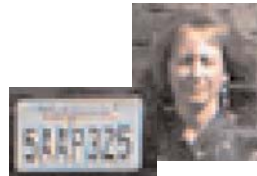

The IQeye is a low power IP camera that can be powered up to 100m over the Ethernet, using standard CAT-5 cable and an included power injector. IQpoet significantly reduces cost, simplifies installation and provides redundant power capability.

- **Free Power-Over-Ethernet**
- **Alarm input and relay output**
- **No client application, all browser based**
- **Fits in standard CCTV outdoor housings**
- **5fps @ SVGA (800 x 600)**
- **Exposure window spot metering**
- **Day-night mode, motion detection, privacy zones and infinite cropping**
