

# Multi-megapixel IP Video

## Smart Camera Systems with LIGHTGRABBER<sup>TM</sup>

The IQeye300 Series, from IQinVision, offers exceptional multi-megapixel resolution with LIGHTGRABBER low light technology.

Crisp, clear pictures from dimly lit scenes are just one of the many advantages. Digital PTZ with 40x the resolution of CCTV systems lets you replace multiple cameras or a mechanical PTZ camera.

The IQeye300 Series includes everything you need to build a smart, high-resolution, high-sensitivity IP network video system - that's affordable.

Available with a PC card slot for Wi-Fi or on-camera storage, the IQeye300 Series' industrial design, and very low power consumption, make it ideal for the most demanding applications.

- **1.3 / 2.0 / 3.0 megapixel resolution**
- **LIGHTGRABBER low light technology**
- **Embedded recording software**
- **Quadview multi-camera viewing**
- **Digital PTZ with no moving parts**
- **Smart video algorithms**
- **PC card slot for Wi-Fi/on-camera storage**
- **Integrated power over Ethernet**

# IQeye300 - Multi-Megapixel IP Video

## IQlibrarian™

Embedded in every IQeye smart camera system, IQlibrarian enables you to record and playback images *with no client software*. Record on-camera or to a remote server using standard commodity FTP network storage.

## IQpoet™

The IQeye is a low power IP camera that can be powered up to 100m over the Ethernet, using standard CAT-5 cable and an optional power injector. IQpoet significantly reduces cost, simplifies installation and provides redundant power capability.

- Extensive bandwidth management
- 0.3 lux performance
- Proven network reliability
- Alarm input, relay and 12V DC output
- Low power, AC or DC
- No client application, all browser based
- Fits in standard CCTV outdoor housings
- 2.5ips @ HDTV 720P, 22ips @ DVR quality
- Exposure window spot metering
- Day-night mode, motion detection, privacy zones and infinite cropping
