First I went here and ordered 56 PC1300 alkaline D cells for 90 cents each:

<<http://www.batterystation.com/lithium.htm>>

Then I went here and ordered 8 style #6 packs for \$5 each:

<<http://www.batterystation.com/configurations.htm>>

With all of these things in your cart they will know that you want packs built with the cells you order. They shipped pretty quickly.

Here's the receipt:

Thank you for your order. Orders are entered manually and should ship within 48 hours. The server only collects information and does NOT charge your credit card. Money Order purchasers will receive a follow up email with correct shipping charges added.
