PHOENIX-SERIES

Embedded Server – OEM SBC

OEM Pricelist 5101B

μX™-SERIES	Part Number	Price/ Piece (Euro net)
uX-Ultra-SBC-1	03010-1632-00-0	Standard Version 394
ARM 720T with Cache/MMU/70 Mhz 16 MB Flash, (max. 32MB) 32 MB DRAM, (max. 64 MB) 2k onchip SRAM Onboard BootROM 10 BaseT Ethernet 4 x RS232 Digital I/O USB Client 1.1 Multimedia-card slot for cards with up to 2 GB capacity Watchdog PS2 Keyboardinterface VGA LCD-Controller (interface kit for specific LC-Display required) JTAG-Interface Expansion connector for systemX expansion modules DC-input 8.5-40 volts Dimensions: app. 160x100 mm		
Ultra-CANRS4-Option-Pack	03010-0000-10-0	98
2 x CAN interface optocoupled 1 x RS485 (replaces one RS232)		
Ultra-SRAM-Option-Pack	03010-0000-15-0	47
Nonvolatile SRAM 1 Mbyte batterybuffered		
Ultra-Battery-Option-Pack	03010-0000-20-0	On request
Battery input connector with onboard trickle charger		
Ultra-LCD-Interfacekit-xxx	03010-0000-30-0	On request
Interface Kit for LC-Display		
Ultra-Xtemp-Option	03010-0000-50-0	On request
Operating temp. -40..+85°C Temperaturesensor		

Option packs are board manufacturing options, they are not upgrade options.
 Option packs do not use any of the systemX expansion module options.

Embedded Server – OEM SBC

OEM Pricelist 5101B

μX™-SERIES	Part Number	Price/ Piece (Euro net)
uX-Pro-SBC-1	03015-1632-00-1 Standard Version	428
ARM 920T, 200 MIPS with MMU and Cache 8 MB Flash, (optional 16 MB) 32 MB RAM, (max. 128 MB) 16k Onchip SRAM Onchip BootROM 10/100 BaseT Ethernet 5 x RS232 SSI (at systemX con.) I2C/TWI (at standard connector) SPI (at systemX con.) Compactflash slot memory card capacity actually up to 8 GB USB Host 2.0 fullspeed USB Client 2.0 fullspeed SystemX expansion module connectors DC-input 8.5-40 volts Dimensions: app. 160X100 mm		
Pro-A/D-RS-Option-Pack	03015-0000-10-0	48
A/D Converter 8 Channel, 12 Bit, 3,8 uS conversion time		
Pro-RS485-Option-Pack	03015-0000-10-0	24
1 x RS485 (replaces one RS232)		
Pro-Xtemp-Option	03015-0000-50-0	On request
Operating temp. -40..+85°C Temperature sensor		

Option packs are board manufacturing options, they are not upgrade options.
 Option packs do not use any of the systemX expansion module options.

Embedded Server – OEM SBC

OEM Pricelist 5101B

PHOENIX-ECM	Part Number	Price/ Piece (Euro net)
Phoenix-ECM 16-32	02010-1632-00-0	Standard Version 198
16 MB Flash 32 MB RAM 48k Onchip SRAM Onchip Boot ROM 2 x RS232 10 BaseT Ethernet LCD-Controller Kbd Matrix Interface 3 x 8 Bit + 1 x 3 Bit Digital I/O SSI2 / DAI / Codec Interface PWM Interface JTAG Interface Industrialproof highdensity module connector		
Phoenix xx-yy	Projektversion	
max. Flash memory 64 MB max. SDRAM 64 MB		

PHOENIX-SBC	Part Number	Price/ Piece (Euro net)
Phoenix-SBC-ECO 16-32	02020-1632-04-0	279
16 MB Flash 32 MB RAM 2 x RS232 10 BaseT Ethernet Options (not included in the price) - 4 Bit Digital In/Out optodecoupled - RS422/485, replaces one RS232 Linear power supply DC-input 4.5-15 volts		
Phoenix-SBC-ECO-OPT-DIGIO	02020-0000-10-0	36
4 Bit Digital Input optodecoupled 4 Bit Digital Output optodecoupled Signals fed to Snapin Connectors for screwless connection of cables		
Phoenix-SBC-ECO-OPT-RS485	02020-0000-20-0	24
One serial interface is switchable between RS232 and RS422/485 operation		
Phoenix-SBC-500 16-32	02020-1632-02-0	343
16 MB Flash 32 MB RAM 2 x RS232 10 BaseT Ethernet Linear power supply DC-IN 7..15 V input

DEVELOPMENT KIT	Part Number	Price/ Piece (Euro net)
Linux Dev. Starter Kit	02610-0000-01-3	347
AC-DC supply, Nullmodem-cabel, Patchcabel Cross Development System with GNU Toolchain for Linux Host ARM Linux Kernel 2.4 Binutils, http, ftp, telnet server		
		Not available as single item. Only bundled with any Axotec single board ARM based computer.
Linux Development Kit	02610-0000-01-2	1980
AC-DC supply, Nullmodem-cabel, Patchcabel Cross Development System with GNU Toolchain for Linux Host ARM Linux Kernel 2.4 Binutils, http, ftp, telnet server System incl. Full support according to actual support agreement		
		Not available as single item. Only bundled with any Axotec single board ARM based computer.
Linux Development Kit Project Specific Versions		
We are offering special project specific conditions. Please ask.		

ACCESSORIES	Part Number	
AC-DC Adapter	02052-0000-01-0	18
for use with all embedded server products		
Ethernet Crossover cable	02053-0000-01-0	8
for direct network connection between two ethernet adapters
