

Modular Connector

Pins are numbered 1 to 6 from left to right when looking at connector with the cable towards you, the locking mechanism down (away from you) and the connector pins facing up.

TC-1 Serial Cable

TC-1 updated for 9-pin serial port.
For Tattletale Model 2 or 3 only.
DO NOT USE with Model 4 or 5.

TC-1 modular connector note:

The the TC-1 serial cable is only for use with Tattletale models TT2, TT2A, TT2B, and TT3, (normal RS-232 voltage level serial communication).

The TC-1 cable will damage/destroy Tattletale models TT4, TT4A, and TT5.

The Model 4, 4A, 4B, and Model 5 require a TC-4 serial cable (TTL/CMOS voltage level serial communication).
