PROJECT

Project	Account	RefNum	Amount
900807.01	1500-590		\$19,500.00

REMARKS

Insite Pacific will supply a 4,000 meter titanium pressure housing, with a 7.5 inch hemispherical dome and a corrective optical lens system for an MBARI supplied zoom lens and digital still camera for a price of \$19,500.00. Although the zoom lens is capable of 17 to 35 mm range the corrective optics will only be able to correct for about 24 to 35 mm range. A much larger hemisphere is required for a corrective optical system capable of correcting for the full range of the zoom lens. Unfortunately for this price we could not supply a dome protector or the typical Seacon series connector used by MBARI. We would supply an internal chassis for mounting the camera module, zoom lens, and corrective lenses. MBARI would supply all of the electrical interface required. Please note the electrical interface would be required prior to testing of the camera and optics.

ITEM DETAIL

#	Description	Part #	Quantity	U/M	Unit Cost	Ext Amount
1	Custom Insite camera housing for the Nikon D-700 with corrected dome optics		1.0000	Each	\$19,500.00	\$19,500.00

for a 28mm lens built with titanium and pressure resitatan to 4000m
