NOTES:

Production slots are allocated once a purchase order is received. Lead times range from 6 to 9 months, depending on availability.

Please send all purchase orders to: Orders@krakenrobotics.com

Kraken's standard terms and conditions apply. See <https://krakenrobotics.com/about/terms/> for details.

Kraken aims to always provide the most accurate lead times, however with the current global supply chain shortages, lead times are subject to change. Dates will be confirmed at time of order, and Kraken will notify the customer should there be any potential delays in delivery.
