

Holothuroid Running Species List

This is a dynamic working list of the species seen (to date) in June and Nov 2012 transects at station M.

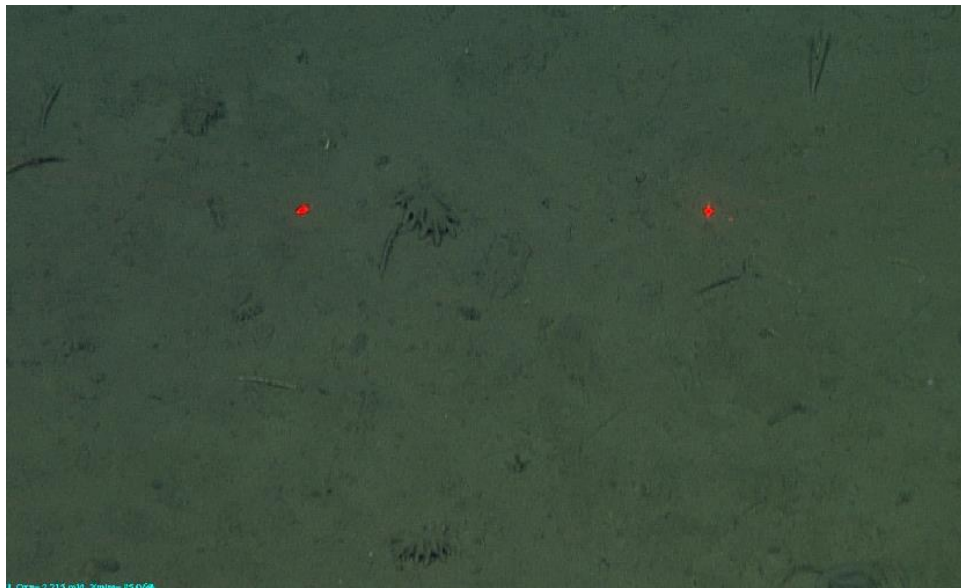

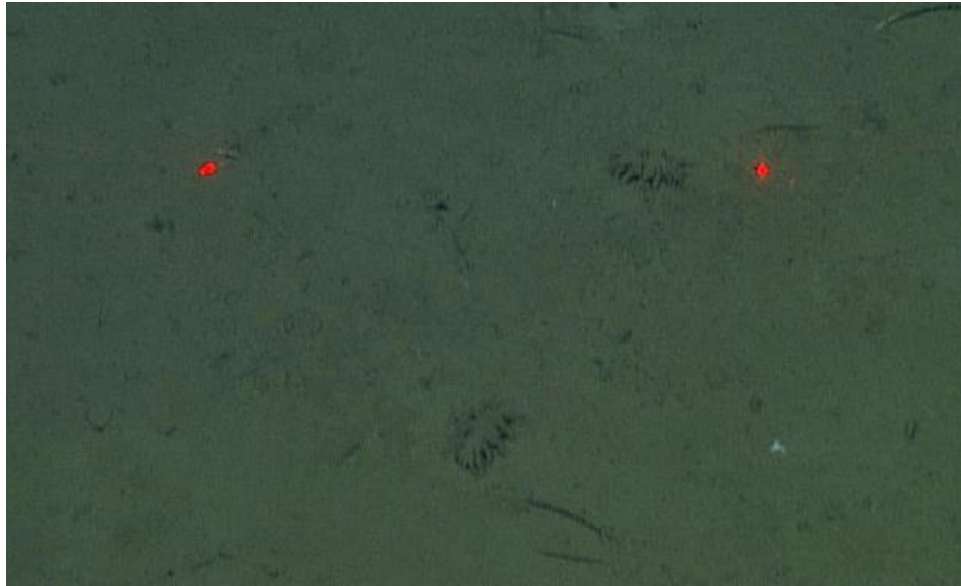

<i>Abyssocucumis abyssorum</i>	Common
<i>Elpidia sp. nov</i>	Very common
<i>Oneirophanta mutabilis complex</i>	Rare
<i>Paelopatides confundens</i>	Rare
<i>Peniagone sp. nov</i>	Very common
<i>Peniagone gracilis</i>	Common
<i>Peniagone vitrea</i>	Common
<i>Peniagone papillata</i>	Rare
<i>Peniagone sp. 2</i>	Rare
<i>Peniagone sp. 1</i>	Rare
<i>Psychroptes longicauda</i>	Rare
<i>Scotoplanes globosa</i>	Very Common
<i>Synallactidae gen et. sp. indet.</i>	Rare

Working Reference Photos (from framgrabs unless noted) below

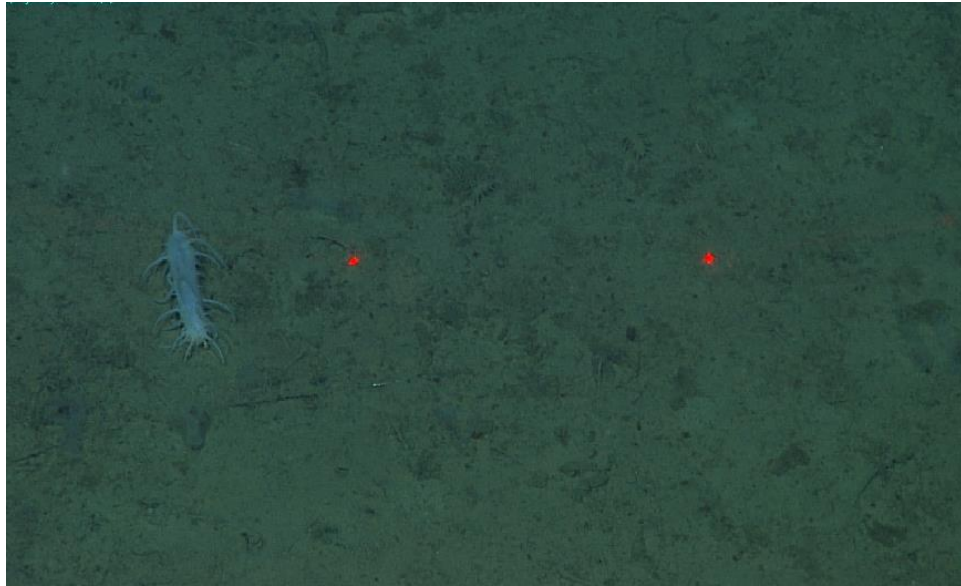

Abyssocucumis abyssorum

Elpidia sp. nov

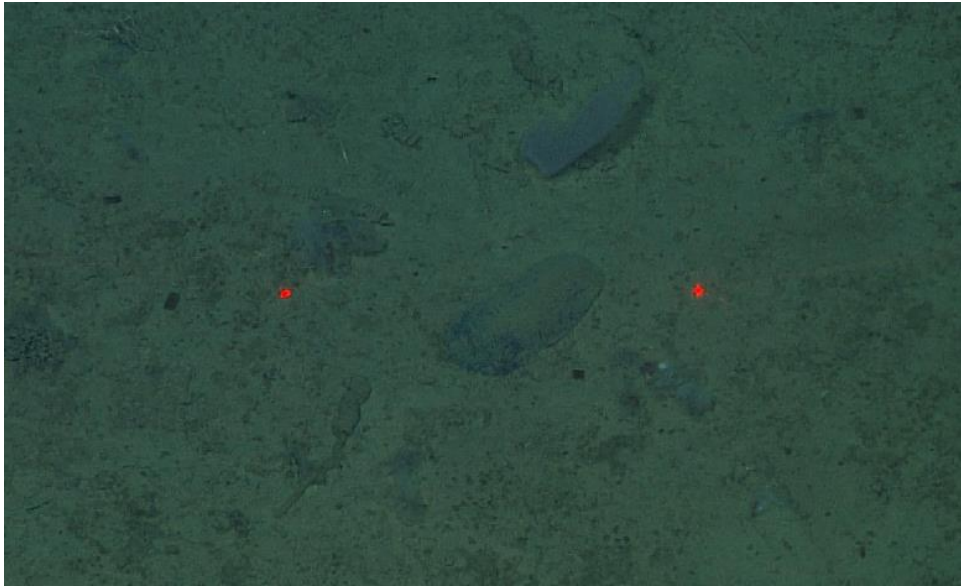

Oneirophanta mutabilis complex

Taken from MBARI internal deep sea guide

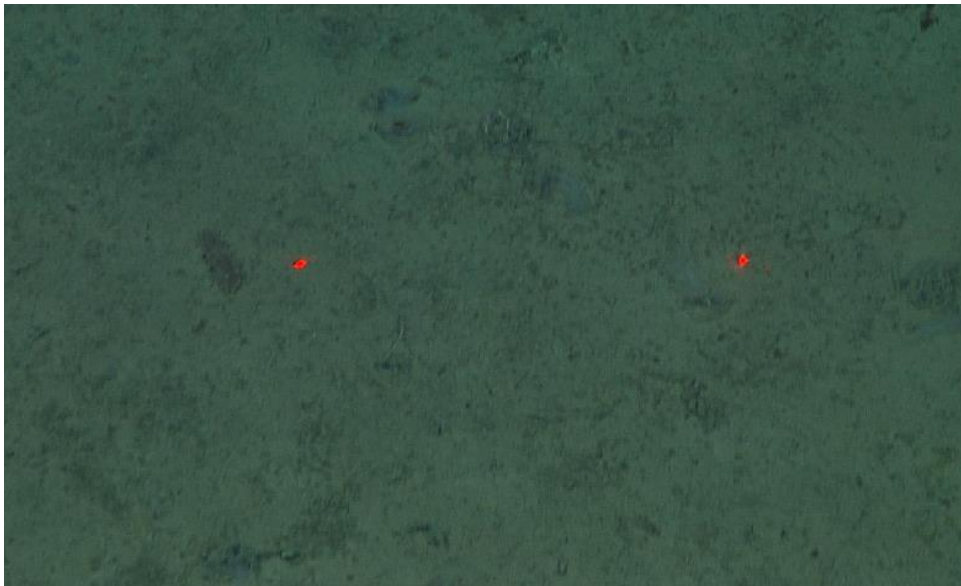

Paelopatides confundens

Peniagone sp. nov

Peniagone gracilis

Peniagone vitrea

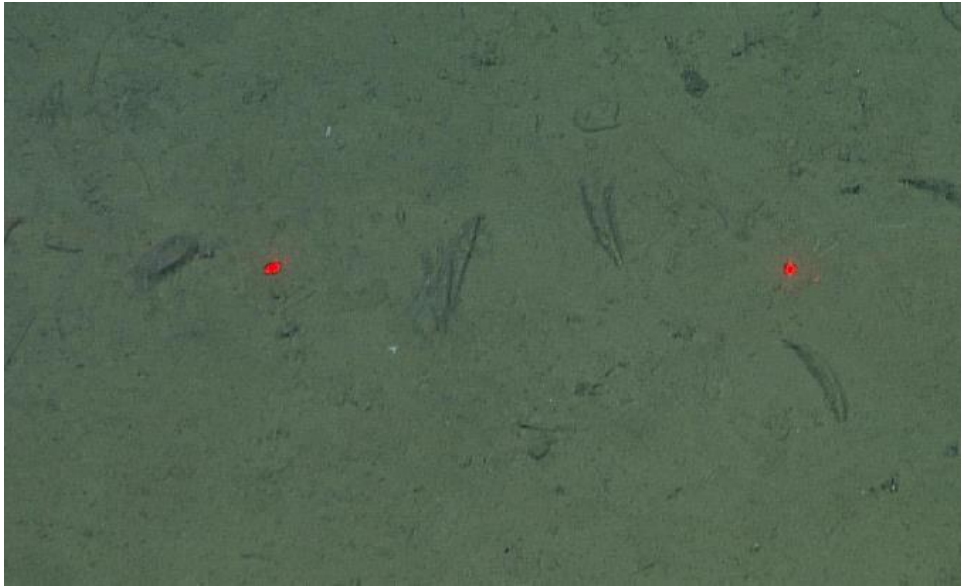

Peniagone papillata

Peniagone sp. 2

Peniagone sp. 1

Psychroptes longicauda

Scotoplanes globosa

Synallactidae gen et. sp. indet.

Taken from MBARI internal deep sea guide
