Notes:

1. Moog Inc., Components Group Standard Terms and Conditions apply to any resulting orders unless stated otherwise herein or a formal agreement exists between companies. MCG terms and conditions are accessible at <http://www.moog.com/about/components-group/>
2. Buyer acknowledges that if the items purchased here under are to be exported, they are subject to the U.S. Commerce or State Department Export Regulations, and buyer accepts full responsibility for and agrees to comply fully with such regulations, including obtaining export licenses and re-export permission.
3. For tax purposes we are required to maintain a copy of your tax exempt/resale certificate. Please provide this information during order placement. If this tax-exempt information is not provided, sales tax will be added to your order.
4. The minimum accepted value of any order is \$250. Buyer's accumulation of a number of items into one purchase is authorized to reach order value.
5. Moog Inc., Components Group Springfield Operations is an approved FAA repair facility.
6. Payment of the Engineering Set Up charges does not convey unlimited data rights or ownership of designs.
7. Inspection in accordance with MCG-SO Standard Test Procedures.
8. AS9100 Revision B Certified.
9. Chemical Composition Assessment and Restrictions – Assessment for compliance to REACH, RoHS, or any other restrictions of composition or constructions shall be supplied only when requested and available or where not available, quoted and funded as a separate line item on the purchase order. Compliance with any composition or construction restrictions may in many cases require consideration; including cost, schedule and/or design modification, and may require funding if required by the customer.
