Dale, it looks like MBARI has an account set up with us. You can use a credit card or just give us a PO#.

I'm in the office now if you want to call with a credit card #.

Thanks, ...Pete

Pete,

The seal on the drawing will work fine for my application and the two week delivery also works. Can I place an order with a credit card?

Thanks,

Dale

Dale, I looked at pricing of this seal with ceramic and with the silicon carbide. Because of the quantities we make, the pricing is almost identical for both. So I suggest you stay with the seal on the drawing I sent you.

Part # M186618

Drawing: GA-105882-1

Materials: carbon, silicon carbide, buna, 18-8SS

Price: \$45.50 ea net

Delivery: about 2 weeks. The parts are out there, but they have to be scheduled to be assembled. If you have a specific need date, we can try to accommodate you.

Thanks,Pete

Pete,

Thanks for the quick response. The unitized part will work fine. I would like to go ahead and place an order, so please let me know the availability and price.

Thanks,

Dale

Subject: 14mm Type 21 seal

Dale, the seal we have available in the Type 21 series is a 14mm Type 2106. The 2106 is a unitized Type 21 that is gaining favor due to ease of installation. The attached drawing shows a cup mounted mating ring in silicon carbide. If this design is acceptable, I'll check on the availability of ceramic.

Thanks,Pete
