Subject : USCG D11 - Request for LNM Publication (23MAY to 10JUN)**To :** D11LNM@uscg.mil**Reply To :** Christopher Wahl <cwahl@mbari.org>

Dear Sir or Madam:

Please post the following local notice to mariners

Begin notice:

The Monterey Bay Aquarium Research Institute (MBARI) will be conducting 24/7 autonomous, unmanned maritime vehicle operations of a Liquid Robotics, Inc. Waveglider (www.liquidr.com), **from 23 MAY 2016 through 10 JUN 2016**. We plan to deploy vehicles in the vicinity of Moss Landing that will operate continuously between latitudes 36 deg 33.0' N and 37 deg 12.0' N and will extend shoreward from as far West as 122 deg 42' W longitude. Operations consist of scientific ocean data collection. Wave Glider carries no fuel, lubricants, or hydrocarbons, is wave powered, remotely attended from MBARI, moving at speeds of ~1kt, and designed to give way or part if encountered by a vessel. It is approximately 6.5' x 2' (surfboard size), yellow in color, with a contact plaque and mast extending 1 meter above the water surface supporting a flag. Mariners are advised to use caution when transiting the area. For further information, authorities and mariners can contact MBARI at 831-775-1700, waveglider@listserver.mbari.org, or Liquid Robotics 24/7 WGOC Operations at [888-574-4574](tel:888-574-4574), [+1 408-636-4205](tel:+1408-636-4205).

End notice:

Thank you,

--

Christopher Wahl
