ACCESSORIES

HDMI input resolutions up to Full HD 1080p at 60Hz, and offers analog composite video output up to NTSC 480i or PAL 576i. It also strips the audio from HDMI sources and spreads it out to two-channel stereo audio for TVs.

KanexPro HDMI to Composite with Audio Converter

5V DC Power Supply

Limited 1-Year Warranty

This converter allows you to run your HD sources to analog A/V monitors or projector. The converter is not HDCP compliant, and therefore will not work with HD sources requiring HDCP compliance. For example, the more recent Blu-ray players require HDCP compliance, while the original ones did not.

Note: Product is not HDCP compliant and will not work with HD sources requiring HDCP compliance, such as recent Blu-ray players.

- Designed to convert HDMI signals into analog composite video with R/L audio
- Supports HDMI input resolutions up to 1080p (1920x1080 at 60Hz)
- Provides analog composite video output up to NTSC 480i or PAL 576i
- Decodes uncompressed analog audio signal from an HDMI source
