Fiber Optic Feed Thru

AMETEK SCP's overall goal is to provide Our Valued Customers With The Very Latest in Fiber Optic Manufacturing Methods and Capability.

All employees within Fiber Optics have the necessary training to provide high quality products needed to suit demanding customer requirements.

As an example, AMETEK SCP has designed the world's first glass sealed hermetic High Temperature High Pressure Fiber Optic Feed Thru (FOFT) for use in oil and gas exploration. Designed and tested to withstand 35,000 PSI at 350°C, this product is designed for downhole environments.
