

Iridium Satellite LLC Confidential & Proprietary

**Iridium SBD Direct IP
Address Information**

IRIDIUM

For Mobile Originated VARs should expect traffic from: Either 12.47.179.10 or 12.47.179.11 on port 10800

For Mobile Terminated VARs should direct traffic to: directip.sbd.iridium.com on port 10800.

Note that VARs must contact Iridium first before attempting Mobile Terminated Direct IP. Iridium requires the VAR to provide the originating IP address from which MT-SBD messages will be sent to Iridium. VARs should contact their Global Alliance Manager with this information so that Iridium can schedule its inclusion in a periodic update of the Iridium firewall.

This information is confidential is not to be disclosed except to authorized Iridium business partners with whom a value Non-Disclosure Agreement is in place.
