Product description

u-tray is a tray application developed by u-blox to support real-time GPS satellite monitoring in Windows 7. u-tray provides a convenient graphical view of visible satellite parameters provided by a USB-connected u-blox GPS receiver. The receiver communicates to u-tray via the Windows 7 Sensor and Location platform. u-tray also provides automatic support for u-blox' AssistNow assisted-GPS service available worldwide via the Internet.

u-tray for Windows 7 is either available as freeware or can be customized to specific customer requirements.

Supported Products

u-tray supports all USB based u-blox 5/6 GPS receivers.
