»»» TUF-Line XP

Aerospace enhanced braided fishing line.

Aerospace technology has been utilized to produce our TUF-Line XP fishing line. Tension Lock Technology TUF-Line XP is braided under high tension, creating more compaction of the fibers during the finishing process and a rounder profile than competitive lines. TUF-Line XP is more compact, smaller in diameter, packs better on reels, offers better knot performance, casts longer, reduces rod tip wraps, and boasts higher abrasion resistance. TUF-Line XPs state-of-the-art coating remains permanently bonded to the fibers, offering an incredibly long service life with zero shedding.

KEYWORDS: TUF-Line XP, braided spectra, braided dyneema, round braid, superline, sensitivity, braid knots, knot performance, casting reels, spinning reels, trolling reels, casting line, spinning line, trolling line, fishing line, braided fishing line, Spectra fishing line

Pro Staff Notes:

Steve McClure

When choosing something as critical as fishing line four things jump out at me as I ask myself 1) Will the line hold up day after day with everything that I am going to put it through, 2) What is the knot strength and performance when under stress, 3) Does it come off the reel easily and thus improve casting distance, 4) How is the sensitivity of the line? TUF-Line excels in all of these areas and then some and that is why I use and trust TUF-Line.

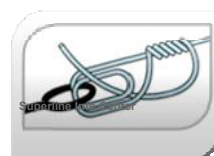

Product Details:

AVAILABLE COLORS:				
				
White	Green	Yellow	Red	
AVAILABLE DIAMETERS:				
RATED POUND TEST	MONO EQUIVALENT	ACTUAL BREAK STRENGTH	DIAMETER IN INCHES	DIAMETER IN MM
6 LB	1 LB	14 LBS	0.002	0.061
8 LB	2 LB	15 LBS	0.003	0.076
10 LB	3 LB	16 LBS	0.004	0.102
15 LB	4 LB	23 LBS	0.006	0.153
20 LB	6 LB	27 LBS	0.008	0.190
25 LB	8 LB	34 LBS	0.010	0.234
30 LB	8 LB	37 LBS	0.011	0.280
40 LB	10 LB	54 LBS	0.012	0.300
50 LB	12 LB	61 LBS	0.013	0.331
65 LB	15 LB	76 LBS	0.016	0.407
80 LB	20 LB	96 LBS	0.018	0.458
100 LB	20 LB	108 LBS	0.019	0.483
130 LB	30 LB	147 LBS	0.023	0.585
150 LB	30 LB	161 LBS	0.025	0.636
200 LB	40 LB	206 LBS	0.028	0.712
250 LB	50 LB	267 LBS	0.031	0.789
