

analog pH board
Freescall Controller
Latchable connectors
 (power and comms)
Base board
CTD controller

Packaging concept for:
 the APEX+ph float pH controller
 using Luke's analog pH board
 with a Freescall controller

Jannasch/MBARI; 6/24/2013

Advantages:

Uses existing pH stem and endcap
 Uses short Al housing
 Installed on top endcap above
 CTD board

Todo:

New base board with connections
 and power supply
 Modified layout for pH PCB
 New software
 Needs to be tested
