Stock Pulleys

BRECOflex CO., L.L.C. has a wide variety of stock pulleys that are readily available. All stock pulleys are made of high grade aluminum and come standard with pilot bore. In addition, BRECOflex CO., L.L.C. also modifies existing stock pulleys to your specifications or will machine custom pulleys for your application's needs.

Please note, that the pulleys listed below are STOCK pulleys only. BRECOflex CO., L.L.C. can provide nearly any pulley that is required in today's most advanced applications. Click here for further details or contact Applications Engineering.

Please select your timing belt pitch:

Please select your timing belt width:

number of teeth	outside diameter	pitch diameter	flange diameter	hub size	face width	belt width	pilot bore diameter	part number	quote
15	11.40	11.94	15	15x6	10	6	3H7	LS 16 T2.5 / 15-2, hub=15x6, d=3H7	
18	13.80	14.32	17	10x6	10	6	4H7	LS 16 T2.5 / 18-2, hub=10x6, d=4H7	
30	23.35	23.87	28	16x6	10	6	6H7	LS 16 T2.5 / 30-2, hub=16x6, d=6H7	
32	24.95	25.46	28	16x6	10	6	6H7	LS 16 T2.5 / 32-2, hub=16x6, d=6H7	
60	47.25	47.75	52	34x6	10	6	8H7	LS 16 T2.5 / 60-2, hub=34x6, d=8H7
