Subject: VisualDSP++ Tools Registration

Dear Wayne,

Thank you for registering your development tools software. Please install one of the validation codes shown below depending on the version, to enable your permanent license of the VisualDSP++ tools.

Your serial number is: ADI-152-256-133630468-2100. Your host ID is: 8D30008

Your validation code for VisualDSP++ version 4.5 or earlier is: 966B595AF3C5

Your validation code for VisualDSP++ version 5.0 or later is: 99FF2E1D3A1B

To determine which version of VisualDSP++ you have installed, select Help -> About VisualDSP++ from the VisualDSP++ Environment menu bar, or locate VisualDSP++ in the Windows Control Panel -> Add/Remove Programs list.

To install the validation code, select Help -> About VisualDSP++ -> Licenses, from the VisualDSP++ Environment menu bar, or locate Manage Licenses in the Windows Start menu -> Programs -> Analog Devices -> VisualDSP++. Select the appropriate serial number and after pressing Validate, enter the code, then press OK.

The latest VisualDSP++ Upgrades and Updates can be found online at:
<http://www.analog.com/processors/tools/updates>

A good resource for the latest processor and tools documentation is the Technical Library at: http://www.analog.com/processors/technical_library

If you need technical assistance with licensing and/or registration contact Analog Devices Processor Tools Registration Support at 1-800-ANALOGD (1-800-262-5643) or e-mail to: processor.tools.registration@analog.com.

Thank You
