

901114 - E&D-Picophytoeukaryotes

Week 35

1. Denis Klimov
 - a. Working on debugging a computer for a spare Chemostat in B232. Turned out it was working, all along but the monitor had issues. New monitor is mounted on the wall to allow more space for working with light-tight enclosure

Week 7

1. Denis Klimov
 - a. Wrapping up low temperature test being run from November, 2019
