Week 36

1. Alana Sherman
 - a. Bringing up new computer with all Mini software
 - b. Made first draft power budget for Benthic Epod

Week 35

1. Alana Sherman
 - a. Working on new Benthic Epod schematics

Week 33

1. Alana Sherman
 - a. Doing schematics for new benthic epod

Week 28

1. Alana Sherman
 - a. Reviewing applicants for MiniROV/EE Position
 - b. Scheduling interviews for MiniROV/EE Position

Week 11

1. Alana Sherman
 - a. Helped mob the Carson on Tuesday
 - b. Worked with Dale to debug LabView issue on back up computer

Week 10

1. Alana Sherman
 - a. Set up system to bring up NUCs with correct vehicle software. On one machine I have an issue that I am trying to debug.

Week 6

1. Alana Sherman
 - a. Fixing an order I botched in almost every conceivable way

Week 2

1. Alana Sherman
 - a. Bringing up new NUC, this required troubleshooting a fault in the Wago stack. After some muddling around, I have everything working on the first machine I brought up but now I am working to debug an issue with the second machine - seems like a LabView library is missing.
