Week 50

- 200103 - Core CTD Data - MDUC
 - Still awaiting Ed P. QC updates for the past 2 months. He indicated that he will be working on it this week.
- 300057 - Mooring Maintenance
 - Spoke with Chris Wahl and Jules regarding the continued issues with the OA1 mooring downloads over the last 6-8 weeks. They are planning another mooring maintenance check in the upcoming weeks to see if the intermittent downloads are related to a cable or a radio malfunction.
- 901101 - Seafloor Mapping
- 902101 - LRAUV Technology Development and Fleet Operations
 - Making headway on various map applications for the LRAUV team.
- Overhead
 - Continue with tutorials for React 18.2 online and via various books.
- Out of Office
 - Had some personal meetings and doctor visits this week.
 - On-campus 3 days/week (**T, W, TH**).

Week 49

- 200103 - Core CTD Data - MDUC
 - Still waiting for the last 6 weeks of updates from Ed Peltzer.....
- 300057 - Mooring Maintenance
 - Have performed weekly checks and have been in contact with Francisco regarding the long data download failures for both of OA1 and OA2. I have not heard from Jules as to whether he was able to determine what the issues were. The downloads have been less often of late.
- 901101 - Seafloor Mapping
- 902101 - LRAUV Technology Development and Fleet Operations
 - Dash5 work.
- Overhead
 - React 18.2 tutorials.
 - Need to work with Doug Conlin as my new laptop power cable no longer charges my computer... ??
- Out of Office
 - Had some personal meetings and doctor visits this week.
 - On-campus 3 days/week (**T, W, TH**).

Week 48

- 200103 - Core CTD Data - MDUC
 - Ed is buried with hazmat issues and the MARS node recovery and pressure vessel safety due to decomposition products from arcing. I will be on hold with ROV CTD QC until he has finished with this task.
- 300057 - Mooring Maintenance
 - Checking in with some of the download failures with M1, OA1 and OA2. The two latter moorings appear to go through intermittent connection losses but re-establish after 10-12 attempts.
- 901101 - Seafloor Mapping
- 902101 - LRAUV Technology Development and Fleet Operations

- Continue working on Measurement control in Dash5
- Overhead - Spinning up again on React tutorials.
- Out of Office
 - On-campus 3 days/week (**T, W, TH**).
 - Back from Jury Duty.

Week 47

- 200103 - Core CTD Data - MDUC
- 300057 - Mooring Maintenance
- 901101 - Seafloor Mapping
- 902101 - LRAUV Technology Development and Fleet Operations
- Overhead - Reading through lots of email during my jury duty service.
- Out of Office
 - On-campus 3 days/week (**T, W, TH**).
 - **JURY DUTY (until first week of Dec).** - Finished up jury duty late last week. Decompressing a bit.

Week 46

- 200103 - Core CTD Data - MDUC
 - Still awaiting updates from Ed Peltzer on recent ROV dives.
- 300057 - Mooring Maintenance
 - Looked into the status of the M1, OA1, and OA2 moorings.
- 901101 - Seafloor Mapping
- 902101 - LRAUV Technology Development and Fleet Operations
 - Spun back up to the Dash5 GUI work after a month in jury duty.
- Overhead - Reading through lots of email during my jury duty service.
- Out of Office
 - On-campus 3 days/week (**T, W, TH**).
 - **JURY DUTY (until first week of Dec).** - Finished up jury duty late last week. Decompressing a bit.

Week 45

- 200103 - Core CTD Data - MDUC
- 300057 - Mooring Maintenance
- 901101 - Seafloor Mapping
- 902101 - LRAUV Technology Development and Fleet Operations
- Overhead
- Out of Office
 - On-campus 3 days/week (**T, W, TH**).

 - I *may* have to serve on jury duty (final jury selection will be next Monday). If chosen, I will be asked to serve ~8 weeks..... NOT kidding.....

Week 39

- 200103 - Core CTD Data - MDUC
 - Awaiting updates from Ed P.

- 300057 - Mooring Maintenance
 - Still working with Francisco and his group to try and get OA1 back on line.
- 901101 - Seafloor Mapping
- 902101 - LRAUV Technology Development and Fleet Operations
- Overhead
 - Spending time working through online React 18+ tutorials.
- Out of Office
 - On-campus 3 days/week (**T, W, TH**).
 - I will be out this coming Monday (September 25) on personal leave.
 - I have been called for jury duty for the week of October 2-6 and will send a note should I be chosen to serve on a trial during that week.

Week 38

- 200103 - Core CTD Data - MDUC
 - Awaiting EXPD ROV QC updates from Ed P.
- 300057 - Mooring Maintenance
 - I spent quite a bit of time working to help Francisco and his team with their deployment and data download issues for OA2 over the last week. In addition, OA1 has stopped downloading data (could not acquire TNC port). I am working with Francisco on trying to bring that back up and online this week.
- 901101 - Seafloor Mapping

 - Out-sick T, W.

Week 34

- 200103 - Core CTD Data - MDUC
 - Weekly updates to EXPD of ROV CTD QC data checked by Ed. P.
- 300057 - Mooring Maintenance
 - Weekly checkin and maintenance as needed.
- 901101 - Seafloor Mapping
 - Read the most recent proposal feedback by management.
- 902101 - LRAUV Technology Development and Fleet Operations
 - Continue to check off requested functionality for Dash5 working with Jim Jeffers. We have now implemented:
 - Elevation on maps
 - Measurement Tool
 - Geometry Toolbar
 - Split-Pane control
- Overhead
 - I have my new laptop. IS is requesting I copy over all data from my old laptop and turn it in ASAP. This is taking up more time than I had thought. I hope to get it to them next week sometime.
- Out of Office
 - On-campus 3 days/week (**T, W, TH**).
 - Sprained my back on Monday and am currently working from home due to the pain. Hopefully “back” in the office next week. (pun intended)

Week 33

- 200103 - Core CTD Data - MDUC
 - Updating weekly ROV CTD-QC edits into the EXPD for Ed P.
- 300057 - Mooring Maintenance
 - Weekly maintenance and operational checks
- 901101 - Seafloor Mapping
- 902101 - LRAUV Technology Development and Fleet Operations
 - Worked with Jim J. to finally get the GoogleMapsApiKey to work smoothly in Dash5
 - Now have elevation working
 - Now have split-view pane between map and vehicle control working
 - Currently working on react-leaflet-measure code refactoring
- Overhead
 - Continue to try and setup my new laptop before turning in my old one to IS
 - Spoke with Mike M. about setting up a requirements list for his class at Capstone. He will suggest they design and build a new UI similar to the one that we will take on for the new EXPD web UI at MBARI.

This will allow new ideas from the students. Actually, a great innovative idea on how to approach the new EXPD web Form.

- Out of Office
 - On-campus 3 days/week (**T, W, TH**).

Week 21

- 200103 - Core CTD Data - MDUC
 - Processed weekly ROV CTD O2 data information into EXPD for Ed.
- 300057 - Mooring Maintenance
 - Helping with upcoming Mooring Deployment.

- 901101 - Seafloor Mapping
 - Meeting tomorrow with Jenny, Mike M., and Dave C., about the project for the year ahead.
- 902101 - LRAUV Technology Development and Fleet Operations
 - Working to get various UI functionality working with the new dash5 ahead of DOEST
- Overhead
 - Office Move this past week. My office location is now with Carlos in Bld. A258.
- Out of Office
 - VACATION: May 30, June 19-23, 2023
 - Now in the office 3 days/week M, T, Th..

Week 20

- 200103 - Core CTD Data - MDUC
 - Updated several ROV CTD Data to the EXPD for vnta dives from last week. A new CTD was installed on the ROV which unfortunately encountered some failures for several of the dives.
- 300057 - Mooring Maintenance
 - Helped Kent restore downloads to the 2023 M1 test deployment directory on coredata
 - Updated T-String information for the 2023 M1 test directory for Jared
- 901101 - Seafloor Mapping
- 902101 - LRAUV Technology Development and Fleet Operations
 - Working with map updates for the team.
 - Brian wants to show the new Dash5 to the Board for the DOEST in June. Lots to do beforehand to try and get ready.
 - Have requested to have a meeting with Brian K. sometime this week or next to go over Dash5 and expectations from both Sumo Creations as well as myself.
- Overhead
 - Working with the SE team to turn out an Abstract and proposal for the EXPD modernization.
 - Meeting with Mike M. today to discuss the proposal as well.
 - Awaiting word from facilities regarding my new office being completed (hopefully today). I will try and move by the end of this weekend or early next week.
- Out of Office
 - VACATION: June 19-23, 2023
 - Now in the office 3 days/week M, T, Th..

Week 19

- 200103 - Core CTD Data - MDUC
- 300057 - Mooring Maintenance
 - Weekly maintenance and observation
- 901101 - Seafloor Mapping
- 902101 - LRAUV Technology Development and Fleet Operations
 - Working to upgrade requested map components for the team
 - Spoke with Jim Jeffers. He has some time left and is going to try and help with more critical Front End issues and bugs as he is most familiar with those components.
- Overhead
 - Added R/V Packard to ship lists in Precruise. I will need to test these changes prior to making them "live" for users.
- Out of Office
 - Now in the office 3 days/week M, T, Th..

Week 18

- 200103 - Core CTD Data - MDUC

- 300057 - Mooring Maintenance
 - Continue to monitor the CTD issues on M1.
- 901101 - Seafloor Mapping
- 902101 - LRAUV Technology Development and Fleet Operations
 - Working on 3rd party applications to upgrade them to work with React 18+. Many of the 3rd party apps that Carlos used for dash4 have not been upgraded in 4+ years and require updates to get them to work with the new dash5.
- Overhead
 - Participated in a few field trips for my daughter's class over the last week. The summer is almost upon us and the school has been requesting more parental participation.
 - I have been reviewing the code for the precruise, files that need to be changed and edited in order to add the R/V David Packard to the ship list. I will focus on this in a week or so after I have tried to implement the LRAUV 3rd party edits to dash5.
 - Preparing for my office move. It may happen as early as next week.
- Out of Office
 - Now in the office 3 days/week M, T, Th..

Week 17

- 200103 - Core CTD Data - MDUC
- 300057 - Mooring Maintenance
 - Awaiting updates with regard to the CTD download issues from Jared.
- 901101 - Seafloor Mapping
- 902101 - LRAUV Technology Development and Fleet Operations
 - Working on bugs, issues and UI requests for the project.
 - Ordered various books on React JS on how to build third-party plugins to apply to React-Leaflet.
- Overhead
 - Preparing for my office move either this week or next week.
 - The move will most likely take a day or two to complete once the office finished.
- Out of Office
 - Now in the office 3 days/week M, T, Th..

Week 16

- 200103 - Core CTD Data - MDUC
- 300057 - Mooring Maintenance

Week 15

- 200103 - Core CTD Data - MDUC
- 300057 - Mooring Maintenance
 - Monitoring the issues with the M1 microcat CTD data.
- 901101 - Seafloor Mapping
- 902101 - LRAUV Technology Development and Fleet Operations
 - I have been focusing mainly this week on addressing implementation of tools and bug fixes on the LRAUV dash5.
 - Cleaned up the tethysadmin's home directory of unneeded dash5 development folders for Carlos.
- Overhead

- Out of Office
 - Now in the office 3 days/week M, T, Th..

Week 14

- 200103 - Core CTD Data - MDUC
- 300057 - Mooring Maintenance
 - Monitoring the CTD cable issues on M1
- 901101 - Seafloor Mapping
- 902101 - LRAUV Technology Development and Fleet Operations
 - EcoHAB week. Working diligently to get issues and bugs resolved ASAP for the LRAUV team. This project is taking up most of my time this week.

Week 13

- 200103 - Core CTD Data - MDUC
- 300057 - Mooring Maintenance
 - Monitoring the CTD cable issues on M1.
- 901101 - Seafloor Mapping
- 902101 - LRAUV Technology Development and Fleet Operations
 - Spent a lot of time this week familiarizing myself with the Dash5 code. I have been addressing multiple issues on the new Dash5 in an effort to get the most critical issue resolved prior to the team's ECOHab deployments in April.
 - Worked with Jim Jeffers to move the newUI to the mbari-org/dash5 Github repository.
 - I built-up the GitHub issue tracker section of the mbari-org/dash5 with all of the prior bug issues, feature requests from the team's [Google Docs spreadsheet](#). Brian will plan to delete this spreadsheet in the near future and shift completely to the GitHub issue tracker.
- Overhead
 - Q1 Check-in with Kevin.
- Out of Office
 - Now in the office 3 days/week M, T, Th..

Week 12

- 200103 - Core CTD Data - MDUC
 - Updated several docr ROVCTD incorrectly flagged O2 values for Ed P. and Kim R. from 2019. (3/17/2023)
- 300057 - Mooring Maintenance
 - Weekly data checks for mooring data.
- 901101 - Seafloor Mapping
 - Reviewing some of the UI code prior to Jenny P.'s return in a few weeks.
- 902101 - LRAUV Technology Development and Fleet Operations
 - Spent time creating a fork from the Sumo Creations Github repository. Yesterday I was able to add the GMRT WMS map to the LayerControl method.
 - Helped Carlos move the new-Dash5 repo to okeanids.mbari.org (new Dash5 button on the) site now. The LRAUV team is already trying to work with the new UI. They are finding a lot of issues that appear to now currently work (sending commands to vehicles, responsive view for mobile phones, etc not working).
 - I will be trying to compile all of these issues along with those from the LRAUV team into a bug system..

- Speaking with Jim Jeffers about transfer of the SumoCreations new-Dash5 repo to the MBARI Github repository.
- Overhead
 - Preparing to update the precruise web forms to include the R/V David Packard.
- Out of Office
 - Now in the office 3 days/week M, T, Th..

Week 9

- 200103 - Core CTD Data - MDUC
 - Began working on updating the rovctd data sets for the last few ROV dives of 2022 into the EXPD for Ed. P.
 - Yesterday, I encountered a recurring issue of crontab not locating the forever @reboot script to restart the rovctdqcplot servlets. I enabled a crontab email and text system to alert me every time coredat8 is rebooted so that I can check the plot page for Ed. I plan to speak with Peter about figuring out how to fix these reboot issues in the near future.
- 300057 - Mooring Maintenance
 - Checked data downloads and integrity.
- 901101 - Seafloor Mapping
 - Spoke briefly with Jenny P. about her ideas on improving the SMDB dash when she returns in 2 months from her mapping cruise on the Falcor.
- 902101 - LRAUV Technology Development and Fleet Operations
 - Spinning up on taking over Dash UI responsibilities from SUMO creations.
 - Held a ZOOM meeting with Jim J. on initial steps to do
 - Steps include building the UI from scratch from the Github site, hash out any install issues and fix them, and integrate the dash on a local server (okeanids?) for hosting and set up a JIRA bug tracking site for the project team.
 - I have also spent time getting acquainted with the current dash to best understand users' needs with the UI. In addition, I set up transects for the upcoming EcoHAB missions for the team, updated the team using the Slack channel and pinned it for future referral.
- Overhead
 - Mike M. has asked me to begin updating the precruise to include the R/V David Packard (dpkd).

- I have sent an email to both Mike K. and Matt to ask about policy changes between the wfly and the dpkd for the precruise.
- I plan to have it up-to-date by summer. The first dpkd cruise is scheduled for July
- Out of Office
 - Now in the office 3 days/week M, T, Th..

Week 8

- 200103 - Core CTD Data - MDUC
 - Plan to discuss server mounting issues following a reboot of coredata with Neil. Quite often there are issues with server mounts after a software update on coredata or a restart. I would like to understand more on why this occasionally happens and how to circumvent the issue.
- 300057 - Mooring Maintenance
- 901101 - Seafloor Mapping
 - Plan to meet with Jenny and Mike this week via ZOOM if possible. Jenny will be leaving for an upcoming cruise on the Falcor so it would be good to coordinate before she leaves on needed tasks for the SMDB UI.
- 902101 - LRAUV Technology Development and Fleet Operations
 - Met with Brian K. yesterday. Began spinning up on the LRAUV project by viewing a video on controlling LRAUVs via the existing UI. We discussed the project and I have a list of issues I will be addressing over the next few weeks including a new GIRA bug list, installing the SUMO UI on a local server and setting up missions for an upcoming field operation.
