

300079 - DMO Divisional Support - Rachel Carson

Week 46

1. Kevin Gomes
 - a. Assisted with troubleshooting Dive number issue (and propagation through navproc M3RS)

Week 34

1. Eric Martin
 - a. Meeting last week with Exail to discuss INS options

Week 33

1. Eric Martin
 - a. Exail meeting on INS options

Week 26

1. Eric Martin
 - a. Some discussions with Erik regarding 2022 plans
 - b. Call with SOI's Jason Williams regarding SOI interest in licensing Dorado designs

Week 24

1. Kevin Gomes
 - a. Reviewing 4DNav to try to plan for ODSS integration

Week 23

1. Eric Martin
 - a. Discussing need for 2024 with the dorado team.

Week 12

1. Mike Risi
 - a. Helped debug issue with ships GPS after shipyard.
 - b. Performed navproc update after Rachel Carson returned from shipyard.

Week 11

1. Kevin Gomes
 - a. Somehow the Leica GPS on the Carson is happy again (with respect to Navproc) and verified data streams we have to date with Dataprobe.

Week 10

1. Kevin Gomes
 - a. Troubleshooting an issue with the Leica GPS. It died before the shipyard and it's back up and running, but data feeds are not making it to navproc for some reason.

Week 9

1. Kevin Gomes
 - a. Carson due back Wednesday (currently scheduled) so will work on bringing systems back up after that.

Week 7

1. Jon Erickson
 - a. Lifting bullet mod. For Talkcovic
2. Kevin Gomes
 - a. Helping DJ with GSS setup in ROV pilot areas (cables, ubuntu issues)
 - b. Debugged some issues with hardware on the machines in DJ's area. Looks like it was yet another bad/fried NVidia card.
 - c. Starting to work on upgrading DiveLog app
