

901217 - Chemical Sensor Program

Week 42

1. Eric Martin
 - a. Drafting slides as part of the energy analysis.

Week 40

1. Eric Martin
 - a. Analyzing historical data for energy consumption

Week 30

1. Eric Martin
 - a. Sleep feature working, going for long term test.

Week 23

1. Eric Martin
 - a. Presented energy harvesting scripts, need more data
 - b. small code modifications for energy data.

Week 21

1. Eric Martin
 - a. Energy harvesting code

Week 20

1. Jon Erickson
 - a. Waiting on board design
2. Eric Martin
 - a. Energy analysis

Week 18

1. Jon Erickson
 - a. Re-visiting the APEX-ISUS spectrometer boards. Solids from Jose.
2. Eric Martin
 - a. Bench and simulator testing, final bugs polished on sleep features to maximize battery power. Processing data.

Week 16

1. Eric Martin
 - a. Working on CPF park period sample period console control.
