

300070 - DMO Support - Ventana

Week 52

1. Mike Risi
 - a. External control interface modifications.

Week 50

1. Mike Risi
 - a. Working on change to external control interface

Week 45

1. Mike Risi
 - a. Working with Kevin and DJ on 4D Nav heading latency issue

Week 42

1. Kevin Gomes
 - a. Fixed time sync issues that were introduced during the GSS upgrade. Need guidance from GSS for a long term fix.
2. Thom Maughan
 - a. Installed ventana ground fault xoyo app on DJs updated laptop. Quick but no thorough test.

Week 41

1. Kevin Gomes
 - a. Debugging GSS time sync issue

Week 35

1. Kevin Gomes
 - a. Wrote and installed a python script that replaces the old ActiveState perl script that was syncing changes to the CTDcoeff.ini file on the CTD GUI machine with a database on the ships. This breaks all dependency from ActiveState perl (at least on the ship side of things).
 - b. Support for GreenSeas upgrade (lcm loggers, NAS, etc.)

Week 29

1. Kevin Gomes

- a. Fixed bug in Pilots Dive Log that started with email migration. Deployed on Carson

Week 20

- 1. Kevin Gomes
 - a. Working on new data portal/dive log
 - b. Diving back into authentication

Week 19

- 1. Kevin Gomes
 - a. Working on email fix for DiveLog since moving to new email system

Week 13

- 1. Kevin Gomes
 - a. Ported CTD GUI to windows 11
