

2-1-07

Cathy

I Added Joe pennisi other Two
Boats to the List.

He's sort of upset if a boat comes from
out of town and has a problem. They may
be excluded from this program or agree-
ment, I don't see it that way.

One thing Monterey Bay Aquarium
Research Institute has to understand
to me is, if you have a CA. F&G Licence
ANY ONE CAN fish in Monterey Bay. for
certain kinds of fish or types of gear
you may need a special permit

I guess the 3rd paragraph on the first
page says that, but I don't know of ANY
ONE besides kept harvestors who just
have a permit for Monterey. Its probley
nothing to worry about.

Mike

CABLE PROTOCOL

PROCEDURES TO FOLLOW WHILE OPERATING NEAR THE MARS CABLE IN MONTEREY BAY

PURPOSE OF THESE PROCEDURES

These procedures have been jointly developed by a committee of representatives of the local fishing industry and the Monterey Bay Aquarium Research Institute (MBARI) to use as a guide to responsible conduct in the vicinity of the cable to be placed in Monterey Bay. They are intended to protect the cable from being damaged by contact with trawl or other fishing gear. Fishermen who sign agreements with MBARI can be protected from liability for damaging the cable by complying with these procedures. Compliance compensation for gear sacrificed to avoid damage to the cable. These procedures are attached to the Fishermen's Agreement between Alliance of Communities for Sustainable Fisheries and Monterey Bay Aquarium Research Institute dated February -, 2007 and are made part of this agreement.

SAFETY FIRST

These procedures define how vessels should operate when fishing in the vicinity of
