Dear Douglas R. Steen:

RE: Application # 4700

We have completed the evaluation of your November 1, 2005 request for renewal of Application # 4700 in the Statewide Portable Equipment Registration Program. Based on our evaluation, renewals will be issued for the following engine(s)/equipment unit(s):

Description	Serial Number	Registration Number	ARB Tracking #
Engine	64Z27783	112786	20011657

Enclosed with this letter is a registration certificate, operating conditions, and sticker for each engine/equipment unit listed. A copy of the registration certificate and operating conditions must be kept with the engine/equipment unit or on the immediate premises at all times. In addition, each unique sticker must be permanently affixed in plain view on the corresponding unit for which the sticker was issued.

As a requirement of registration, the owner or operator of the registered portable engine/equipment unit is subject to district notification requirements as listed in the attached operating conditions. In addition, local air quality management or air pollution control districts (districts) may perform compliance inspections and collect inspection fees. Any violation of the operating conditions may result in legal action by either the districts or the Air Resources Board.

Please indicate your application number, listed above, on any future correspondence with us regarding the Statewide Registration Program. If you have any questions regarding your registration, please call Joseph Gormley at (916) 322-5616.

Sincerely,

Jorge Fernandez, Chief
Program Evaluation Branch
Stationary Source Division
