Software Technologies

This page last changed on Oct 13, 2011 by [kgomes](#).

Software Technologies wiki is a collaborative space for discussion and presenting interesting software technologies:

Development Languages	Misc Tips
1. Erlang 2. Android a. UI Libraries i. Greendroid ii. ActionBarSherlock iii. Android Compatibility Package iv. iosched v. Android-Viewflow Project vi. Android-coverflow vii. Android-viewbadger viii. Android-pulltorefresh ix. Android-viewpagerindicator	1. How to configure Apache mod_jk for using Apache http server as front-end for Apache Tomcat applications 2. Security: a. Kerberos: i. How to use Kerberos in a Java Application ii. How to use Kerberos in a Python Application

How to use Kerberos in a Java Application

This page last changed on Oct 13, 2011 by [kgomes](#).

Introduction

This document details how to set up a Java application (desktop) to use Kerberos which is what we are moving towards at MBARI as our authentication mechanism.
